

6<sup>th</sup> November 2023

Dear Families,

### **Parking Around School**

We have had several incidents over the last week of dangerous parking. This has been particularly bad close to school entrances. The school gates are constantly blocked with cars left while children are collected from school. If the emergency services ever had to attend school they would not be able to get access. Parking on the round-a-bout, which has double yellow lines means it can't be used as a turning point. Pavements are blocked which leads to prams being unable to pass and on many occasions parents with young children have to walk on the road.

Please can we remind you that parents and carers cannot use our car park off Boynton Road. It makes it unsafe when cars are using this area when so many children and adults are walking through.

While we appreciate parking close to school may seem essential but please think about others. Parking 5 minutes away and walking will not only benefit your health it may even save a life!

We are currently working with parking services to try and improve this situation and they will be coming to school to ticket cars parked illegally. Children in Y4&5 are also starting a piece of work with the Parking Enforcement Team in December and they will be raising awareness to owners of cars parked illegally.

Thank you for your support to keep our children safe.

Yours sincerely

C. L. Bradley
